The search for new materials is a line of business which encompasses paper and plastic production technologies, the development of pigments, additives, inks and quality control. The Company's achievements in this area include: Selecting materials for plastic document manufacture which provide a service life of up to 10 years. The Research Institute of Goznak is the only organization in Russia able to carry out ID-1 and ID-3 document durability testing. International news about advanced and new materials updated daily covering metals, polymers, composites, ceramics, surface coatings, nanotechnology and more.

Roskill Information Services: 06 November, 2016 (Technical Article). Roskill has released its new rare earths market report with forecasts out to 2026. It is essential reading for anyone needing a comprehensive overview of this rapidly evolving industry. [View Detail]. Advanced thermal system to process battery materials. New Material is the third studio album by Canadian rock band Preoccupations, released on March 23, 2018, by Flemish Eye in Canada and Jagjaguwar in the United States. It was the band's second album released under this name, after changing it from "Viet Cong" in 2015. New Material received positive reviews. At Metacritic, which assigns a normalized rating out of 100 to reviews from mainstream publications, the album received an average score of 73, based on 20 reviews, indicating "general favorable"
